STATE OF NORTH DAKOTA PUBLIC SERVICE COMMISSION North American Local, LLC Designated Eligible Carrier Application Case No. PU-19-127 NOTICE OF OPPORTUNITY FOR HEARING May 1, 2019 On April 8, 2019, North American Local,

LLC (North American), a foreign limited liability company with principal offices in Pensacola, Florida, filed an application for designation as an eligible telecommunications carrier (ETC) for the purpose of receiving federal universal service support for low-income consumers under 47 CFR Part 54 Subpart E. Such designation is also known as Lifeline-only ETC designation. North American proposes to provide wireless prepaid Lifeline universal services to qualifying low income North Dakota customers using its own facilities or a combination of its own facilities and resale of another carrier's facilities. The issues to be considered in this matter are: 1. Is the applicant qualified under the Telecommunications Act of 1996, Section 214(e) for designation as an ETC eligible to receive federal universal service funding? 2. What ETC universal service support area should be designated? 3. Is designation of the applicant as an ETC in the public interest? Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Comments and requests for hearing must be received by close of business on June 5, 2019. If deemed appropriate, the Commission can determine the matter without a formal hearing. For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400 or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials please notify Steve Kahl, Interim Executive Secretary. STATE OF NORTH DAKOTA PUBLIC SERVICE COMMISSION Northern States Power Company Customer Credit - DOE Settlement 2017 Rates Case No. PU-19-93 NOTICE OF OPPORTUNITY FOR HEARING May 1, 2019 On March 1, 2019, Northern States Power Company (NSP) filed a petition for approval to refund to customers the ninth and tenth settlement payments arising from USDOE's inability to accept nuclear waste under the federal Nuclear Waste Policy Act. NSP requests to combine its ninth payment (approximate \$773,104) received November 13, 2018 and a pending tenth payment expected near the end of 2019 into a one-time credit to be issued with interest during early 2020. Alternatively, NSP suggests the ninth payment could be refunded with interest through the fuel cost rider (FCR), based on each customer's current usage rather than the customer's historical usage during the period when the money was collected. The issues to be determined in this matter are: 1. Whether the ninth and tenth settlement payment refunds should be combined in a future bid credit. 2. Whether NSP's ninth settlement payment refund amount is just and reasonable. 3. Whether the Commission should grant a waiver of its Automatic Adjustment Clause rules to enable a refund of the ninth settlement payment through the FCR. Comments and requests for a hearing must be received by June 19, 2019. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. If deemed appropriate, the commission can determine these matters without a hearing. For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400 or Relay North Dakota 1-800-366-6888 TTY. STATE OF NORTH DAKOTA PUBLIC SERVICE COMMISSION Northern States Power Company Customer Credit - DOE Settlement 2017 Rates Case No. PU-19-93 NOTICE OF OPPORTUNITY FOR HEARING May 1, 2019 On March 1, 2019, Northern States Power Company (NSP) filed a petition for approval to refund to customers the ninth and tenth settlement payments arising from USDOE's inability to accept nuclear waste under the federal Nuclear Waste Policy Act. NSP requests to combine its ninth payment (approximate \$773,104) received November 13, 2018 and a pending tenth payment expected near the end of 2019 into a one-time credit to be issued with interest during early 2020. Alternatively, NSP suggests the ninth payment could be refunded with interest through the fuel cost rider (FCR), based on each customer's current usage rather than the customer's historical usage during the period when the money was collected. The issues to be determined in this matter are: 1. Whether the ninth and tenth settlement payment refunds should be combined in a future bid credit. 2. Whether NSP's ninth settlement payment refund amount is just and reasonable. 3. Whether the Commission should grant a waiver of its Automatic Adjustment Clause rules to enable a refund of the ninth settlement payment through the FCR. Comments and requests for a hearing must be received by June 19, 2019. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing.
