# Temporary road, trail closure information updated weekly by DNR

The Minnesota Department of Natural Resources will temporarily close some state forest roads and trails because they are not firm enough to support vehicle traffic without causing damage. Depending on weather conditions, the temporary closures could remain in effect until sometime in May.

"The annual spring thaw creates wet, unstable road and trail conditions," said Deb Pitt, roads program coordinator for the Minnesota Department of Natural Resources Forestry Division. "Seasonal closures protect these roads from damage."

With the increased interest in outdoor recreation

over the past year, Pitt anticipates the warmer weather will inspire people to head to Minnesota's state forests to enjoy the recreation opportunities they provide.

Know before you go!

For information on road and trail closures, visit the DNR's road closure web page (mndnr.gov/closures). Temporary road and trail closure information is updated weekly on Thursdays by 2 p.m. Temporary closure signs also will be posted at entry points and parking lots. Roads that can handle vehicle traffic during the spring thaw will remain open but may have vehicle weight restrictions.

# Detroit Lakes, Moorhead Construction companies pay \$54K in back-wages to workers involved in state-funded project

Following investigations by the Minnesota Department of Labor and Industry (DLI), two construction companies have agreed to pay a total of \$54,000 in back-wages to workers involved in a roof replacement project at Camp Ripley in 2018 and 2019.

DLI found that Azure Construction Inc., of Detroit Lakes, Minnesota, misclassified workers involved in the project, resulting in the workers being paid less than the prevailing-wage rate for the work they performed.

The company agreed to pay \$35,727.08 in back-wages owed to nine construction workers, with back-wage amounts ranging from \$413.70 to \$6,597.05. The company was also fined \$8,000 for failing to keep and maintain adequate employee records.

In addition, DLI also found another company involved in the project, Western Prod-

ucts Inc., of Moorhead, misclassified workers and paid them less than the prevailing-wage rate. The company agreed to pay \$18,779.09 in back-wages owed to 11 workers.

Prevailing wage is the minimum hourly wage employers must pay their employees performing construction work on projects funded in whole or in part with state dollars. DLI sets the prevailing-wage rates to be comparable to wages paid for similar work in the county where the construction project is located.

"Skilled construction workers involved in state-funded projects must be paid the appropriate prevailing-wage rate based on the services they perform," said Roslyn Robertson, DLI commissioner.
